# Piano Placement Grant Information

---

## Benefits of the Grant

A grant allows the use of a piano from PSF's fleet for a limited time.

The term of the grant is for a minimum of one year. After the initial year, up to four six-month extensions can be granted by the PSF Scholarship Committee.

An organization receiving a grant and extensions can have the use of a piano for a maximum of three years.

A contract that covers the legal, insurance, and ownership details must be signed after the grant is awarded and before the piano is delivered to the Recipient.

## Expectations of Grant Recipients

The Recipient must not discriminate on the basis of age, race, gender, religion, sexual orientation, national origin, or disability.

The Recipient will offer music education, music therapy, or other music-related programs.

The Recipient actively works to support children of low-income or underserved populations in the Portland metro area.

The Recipient must not use the PSF piano directly to generate profit.

The Recipient must maintain a logbook describing the type and amount of use of the piano.

The Recipient must send a report to PSF every six months addressing the piano's condition, use and benefit.

Insurance, maintenance and liability are covered in the actual Piano Placement Grant contract.
